Request for a Detailed Study of the European Railroad System

REFERENCE : (a) Memorandum from AD/PC to AD/RR, same subject,
dated 22 January 1951

1. Your request for a detailed technical intelligence study of the European Railroad System has been carefully considered by components of O/RR.

2. It is believed that a more detailed consideration of the scope of the problem would be desirable before proceeding with the initiation of a project of such magnitude. It is therefore suggested that representatives of O/PC and O/RR meet to discuss this project and define further your specific needs in connection with it.

3. [REDACTED] of O/RR will arrange such a meeting. His telephone extension is 2765.
